As some of you may already know, one of our employees, Brandon Thulsie, was arrested over the weekend, on suspicion of terrorism related activities. He is currently in custody, and our investigations indicate that he has in fact not been at work since 27<sup>th</sup> June. His access to our campus has been suspended pending the outcome of the investigation, and I want to assure you that we are working with the authorities in their investigation of this matter, and that we will take all appropriate actions required to ensure the safety of our employees at all times.

We will keep you updated as this matter progresses.

With kind regards,

Adrian

Adrian Gore

Group Chief Executive
